Our Clients' Comments...

WCCT understands the needs of the lodging industry. Before contracting with them, our IT services were disjointed and unreliable. Now our WiFi is stellar, our phone system is connected to our PMS and our network is secured and supported. Now that systems are installed, WCCT has great customer support. Our monthly communication bills are lower and customer complaints minimal.

Cally Dym, Owner Little River Inn

WCCT has worked with us to upgrade our systems to meet today's demands of dependable connectivity — especially during these times of remote work and school. They are great to work with and really understand our needs as a business in the service industry.

Scott Schneider, General Manager Noyo Harbor Inn

Our Future...

WCCT has opened a Showroom in Little River, under the name of North Coast Technologies & Automation (NCTA).

This subsidiary of WCCT allows us to better serve the Mendocino Coast.

You are cordially invited to

North Coast Technologies & Automation

Showroom Grand Opening

Wednesday, November 17, 2021

1 pm to 6 pm

NCTA Showroom & Abalone Hall

Little River Inn

7901 N Highway One, Little River CA

This is an opportunity to visit our Showroom, featuring products and services available on the Mendocino coast.

Meet face to face with our Industry Partners.

Our Industry Partners will be set up in Abalone Hall ready to interact with the Mendocino Coast business community. To date, we have confirmation that these Vendors will be attending: Control4, Ruckus, Axis, Mitel, POS Specialists, AireSpring, Intelisys, Heartland, WebRezPro and CashDrop

They will be available to answer questions and demonstrate their products.

Discover new opportunities that can help your business operations.

Does your business have infrastructure that is outdated, no longer supported and costly? Let's talk!
